SECOM-D-195

19 July 1985

MEMORANDUM FOR: SECOM Members

FROM:

  
Chairman

SUBJECT: Guidance on Use of ORCON Control Marking

25X1

1. During the summer of 1984 SECOM members, by memoranda or orally, concurred in a revision of the guidance in DCID 1/7 on use of the ORCON control marking. A copy of the approved guidance is attached. That guidance has not yet been formally issued in a revision of DCID 1/7.

2. All DCIDs that are being retained are in the process of being reprinted without textual change but with new numbers. (SECOM originated DCIDs will bear their old numbers.) Because this reprinting may cause confusion on the status of the change members approved, it would be appreciated if addressees would advise elements of their organizations which are involved in disseminating ORCON-marked material of attached guidance and request them to apply it in the dissemination and use of such material.

Attachment to SECOM-D-195

(Extract from DCID 1/7, paragraph 8b)

DISSEMINATION AND EXTRACTION OF INFORMATION  
CONTROLLED BY ORIGINATOR (ORCON)

(First paragraph unchanged)

-- Information bearing this marking may not be disseminated beyond the headquarters elements <sup>3</sup> of the recipient organizations and may not be incorporated in whole or in part into other reports or briefings or used in taking investigative action without the advance permission of and under the conditions specified by the originator. As this is the most restrictive marking herein, agencies will establish procedures to insure that it is only applied to particularly sensitive intelligence and that timely procedures are established to review requests for further dissemination of intelligence bearing this marking. This marking may be abbreviated as "ORCON" or as "OC".

<sup>3</sup> At the discretion of the originator, the term "headquarters elements" may include specified subordinate intelligence-producing components.
